# UNIVERSIDAD DE CONCEPCION

## COOPERATION AGREEMENT BETWEEN UNIVERSIDAD DE CONCEPCION, CHILE AND THE INSTITUTE OF CHEMICAL TECHNOLOGY, PRAGUE.

1. The Institute of Chemical Technology, Prague (ICTP) and Universidad de Concepción (UDEC) , agree to cooperation in matters of education, research and scientific work.

The fields of collaboration will be as follows:

- a) Both ICTP and the UDEC will foster graduate and undergraduate exchanges schemes.
  - b) The parties will cooperate on problems regarding university education particularly in fields of science.
  - c) The parties will exchange research experience in fields of mutual interest in science.
  - d) The parties will extend mutual invitations to international scientific events organized or coorganized by one of them.
  - e) The parties will exchange research reports, university publications and conference proceedings, to the extent the parties feel useful.
2. ICTP and UDEC intend to exchange students in the final part of their studies and doctorate studies. Proporsals have to be accepted by both parties.
  3. ICTP and UDEC intend to facilitate exchanges of academic staff on research/sabbatical leave. Proporsals have to be accepted by both parties. The department head at the host institution will make sure that all academic services, such as laboratory and computer resources and library facilities will be made available to such exchange staff.
  4. The extent of these activities depends on the availability of funding on both sides.
  5. Student tuition will be waived by the host institution. Students from both institutions may write reports and thesis in English or another language agreed upon by both parties.
  6. The agreement starts from the present academic year and lasts for a period of 5 academic years, after which an extension agreement, with any necessary adjustment on the basis of past experience, can be signed. The financial aid agreed by both parties will depends on the availability of the resources of each institution.
